

HARDING ASKS BONUS POSTPONEMENT

BOND SALE NOT
ENOUGH TO MEET
STATE EXPENSES

Bank of North Dakota Unable
To Meet Check For Payroll
Of State Institution

ISSUE \$540.00 OF BONDS

Bonds Now Being Distributed—
First Official Statement of
The Bond Sale

The return of a check for \$11,017.23 to the state treasurer by the secretary of the Agricultural College at Fargo with the information that payment on the check, which was for the institution payroll, had been refused by the Bank of North Dakota prompted inquiries which disclosed that a great number of checks of public treasurers now are being turned down by the bank.

The situation that the bank finds itself in at this time, according to Director-General F. W. Cathro, is that the sale of bonds is not keeping pace with the withdrawals from the bank, which are heavy at this time because of the last month bills of the various educational institutions and schools.

Money realized from the sale of bonds has been placed in the Bank of North Dakota to be used for general purposes. Mr. Cathro expressed the opinion that within the next two or three months the sale of bonds will have been sufficient to place the bank in a position to meet all of its obligations. The bond money has been counted on to meet obligations while the bank is unable to realize from deposits in various private banks, in closed banks, in farm loans and loans to state industries.

School Checks.
A number of checks given to the county treasurers for the counties portion of the state school aid fund have not been paid. Among these are Morton county, Burleigh county, Cass, Sully and Ward. During the emergency State Auditor Pindexter is holding bills which are not regarded as pressing before issuing warrants.

Yesterday the state auditor prepared a certificate that \$1,235,661.85 of farm loan mortgages were on deposit in the state treasurer's office.

This was necessary in the issuance of \$540,000 of real estate series bonds which have been sold and which are being delivered. The bonds are coupon bonds, although they can be registered, and the names of the purchasers are not therefore be ascertained. This is the first official figure as to the sale of bonds by the state. How many more have been sold is not known.

New York Difficulty.
The sale is proceeding. In addition to the New York and Chicago offices, solicitors are engaged in other places, particularly in the northwestern states. The Bank of North Dakota, acting as fiscal agent for the bond sale, found in its sale in New York that every bond agency must be licensed. The Bank of North Dakota office was withdrawn and the sale is being conducted in New York in the name of the state of North Dakota without a license, it is stated.

BILLY SUNDAY
AT VALLEY CITY

Evangelist to Appear at Chautauqua There

Valley City, N. D., July 12.—Billy Sunday, the great evangelist, will appear at the Valley City Chautauqua on Tuesday afternoon, July 26. Rev. Sunday is enroute west to his fruit ranch at Hood River, Washington, but has agreed to spend one afternoon at Valley City. Secretary Moe believes that this will prove the banner day in the history of the Valley City Chautauqua. Billy Sunday is an old Barnes county boy and has a brother living in the county.

MEXICO TAKES
STEPS TO RELIEVE
UNEMPLOYMENT

Mexico City, July 11.—Energetic measures to relieve the condition of unemployed laborers in the Tampico Oil fields are being pushed by the government, president Obregon directing the work, which is in active charge of Gen. Cesar Lopez Y. Lara, governor of Tamaulipas.

Although the situation, according to the governor's report to president Obregon, is "the same, advice from the oil regions tell of impending further shutdowns, with the possibility that more than five thousand workers will be dismissed tomorrow. Many are in desperate circumstances and are being cared for at the government's expense until transportation can be obtained for them to other parts of the republic, where public work is being provided.

CHINESE IN BALM SUIT.
Singapore, July 12.—Chia Gin Nee, an 18-year-old Chinese girl, never saw her fiancé. But she suing him for \$2,500, alleging breach of promise. A matrimonial agent representing Lom Teck Sim visited the girl's parents and arranged a match, according to Chinese custom. Then Lom backed out.

BLUEBEARD OR TYPHOID CARRIER?

Mrs. Southard's Trial For Murder Of Her Husband Is To Decide!

MRS. LYDA SOUTHARD AND HER FIFTH AND PRESENT HUSBAND, PAUL VINCENT SOUTHARD.

By Newspaper Enterprise
Twin Falls, Ida., July 12. Lyda Southard deliberate modern Bluebeard, or—

Lyda Southard, afflicted typhoid carrier? The question will be answered here in the fall term of court when Mrs. Southard goes on trial for murder. Prosecution and defense are marshaling their evidence. The trial promises to be the most bitter that the west has seen for years. All Idaho is aroused over it.

Mrs. Southard was arrested recently in Honolulu, charged with the murder of her fourth husband, Edward P. Meyer, a ranchman who lived near Twin Falls.

Three other of her former husbands had died as well as a daughter by the first husband and a brother of the first husband who lived with the couple. Good sized insurance policies were carried by all four of the husbands who died.

Married Fifth Time
At the time of her arrest, Mrs. Southard was living with her fifth husband, Paul Vincent Southard, a naval officer. They were married in Los Angeles, and Mrs. Southard went to Honolulu with him when he was transferred a short time later. This is the unusual matrimonial history of Mrs. Southard that the state has dug up in impersonal facts, uncolored by the charges of the prosecution.

March 17, 1912—Married Robert Dooley. Dooley's brother Ed came to live with them. On May 1, brothers took out joint insurance policy for \$2000, naming Lyda beneficiary. On Aug. 9, 1915, Ed died and Lyda received face of policy. Next day Robert and Lyda applied for joint \$2500 policy, to be paid to survivor. On Oct. 1, a month and a half later, Robert died. Certificate showed scarlet fever as cause. On Nov. 15 Lyda's daughter died. Scarlet fever was given as cause.

June, 1917—Married William G. McHaffie, place unknown. On June 12 McHaffie applied for \$5000 insurance policy, payable to Lyda. Sixteen months later he died. Lyda reported flu and black diphtheria as cause. McHaffie's policy lapsed just before his death.

March 19, 1919—Married Harlan C. Lewis. On June 14 Lewis applied for \$5000 insurance policy. Twenty-

six days later he died. The doctor's certificate said cause was acute gastroenteritis. Lyda collected the policy.

August 16, 1920—Married Edward P. Meyer. Next day Meyer took out a policy for \$10,000 and made a will bequeathing \$12,000 worth of property to Lyda. Twenty-eight days later he died after an illness of a few days. Typhoid fever was given as the cause in doctors' certificates. Two attempts were made to collect the \$10,000 policy but the money was held up.

November 26, 1920—Married Paul Vincent Southard, her present husband, at Los Angeles. Telegraphic advices from Honolulu, where Mrs. Southard was arrested, say Southard stated he had applied for a \$10,000 insurance policy, but that his application for so large a policy was rejected.

State's Statement
This is the unbiased record. This is what Prosecutor Frank L. Stephen has to add to it:

"We do not credit Mrs. Southard's claim that she thinks she is a typhoid carrier, and that it was this that may have caused her husbands' deaths. Regardless of what doctors' certificates showed, we have found proof of arsenic poisoning. What is more, all the men revealed the same symptoms, and they were not the symptoms of typhoid."

"We will claim that arsenic was obtained by an extracting process from fly-paper. And the evidence will show that quantities of fly-paper were found hidden near where two of the men died."

Bodies Exhumed
After the state investigation was begun, the bodies were exhumed and scientific analyses made.

Lyda approaches the climactic chapter in her strange matrimonial serial cheerfully. Whatever her inner thoughts may be, she views the coming ordeal with outward calm. Physically she shows the strain, of course, but she greets callers and jailer with a smile.

Against the amazing chain of circumstantial evidence, that the state has drawn up, Mrs. Southard thus far has submitted only her claim of having doctors' certificates as proof of the cause of her husbands' deaths. She had made only one public statement. That was given out through her attorneys and declared her innocence.

GREEKS START
ON OFFENSIVE

Athens, Greece, July 12.—Official confirmation of the beginning of the Greek offensive against the Turkish Nationalists was supplied in a government statement late last night. The Greeks advanced 15 miles occupying several towns. No resistance was encountered.

FINAL APPEAL IS ISSUED TO AID
IN COMPLETION OF SWIMMING POOL

The swimming pool is nearing completion. While the concrete in the big pool is setting and plans are being made for the opening, the Elks committee is getting ready to go after the money necessary to complete it. The following statement was made today by S. W. Derrick, general chairman of the committee:

You have seen that the swimming pool is a go and nearly completed and ready for the kiddies and grown ups, but there is still money wanted to complete it. While nearly every one solicited

ed donated, it is necessary to make a second call for money, to complete it. While we will make a second drive, it would save a lot of time for the Committee if those who have not donated and those who are willing to donate a second time would either make a deposit at the First Guaranty Bank or mail their check to L. K. Thompson, or myself. Checks should read "Pay to Swimming Pool Fund."

We need three thousand dollars.

Yours truly,
S. W. DERRICK,
Gen'l Chairman

IRISH LEADERS
START JOURNEY
TO CONFERENCE

De Valera and Griffith Head Party Which Will Talk Peace With Lloyd George

ANXIETY IS STILL FELT FRENCH DEPUTIES CHEER

Renewed Rioting in Belfast is Disquieting Feature of the Situation

Dublin, July 13.—(By the Associated Press.)—Irish Republican leaders chosen to participate in the conference to be held with British government authorities in London on Thursday left Dublin this morning for London. They were Eamonn DeValera, leader of the Irish Republicans; Arthur Griffith, founder of the Sinn Fein; Austin Stack and Robert C. Barton, the last two being Sinn Fein members of the British parliament.

BELFAST RIOTS CONTINUE.

London, July 12.—Satisfaction felt by the people of England over the arrangement of a meeting on Thursday between Eamonn DeValera, Irish Republican leader, and Prime Minister Lloyd George was tempered by apprehension today over the situation in Belfast. The rioting which began in that city on Sunday continued yesterday with diminished severity and while there were acts of violence yesterday forenoon in various parts of Ireland the center of apprehension was in Belfast.

It was felt that today might be critical, as it was "Orange's Day," long celebrated as the anniversary of the battle of the Boyne, fought in July, 1690. There were fears that extremists on both sides in Ireland could not be held in restraint by the Irish leaders and would violate the truce which became effective yesterday.

HEAVY CUTS IN
WAGES ARE MADE

Kalamazoo, Mich., July 12.—Wage reductions amounting to approximately \$20,000,000 a year went into effect yesterday in all paper mills of southwestern Michigan. About 3,000 workers in the ten mills here are affected. The cut, which was protested by the employees, amounts to 13 per cent for skilled workers and 30 per cent for unskilled laborers.

MANDAN RATES
ARE DECREASED

Electric Company Voluntarily
Makes a Reduction

The Mandan Electric company has notified the state railroad commission that it voluntarily has discontinued, effective July 1, the 20 per cent surcharge authorized three years ago and is giving the usual discount of 2-1/2 cents per kilowatt on residence lighting, making the lighting rate 12-1/2 cents per kilowatt for the first 50 kilowatts and 10 cents per kilowatt for the balance.

With the receipt of this information yesterday there also came a letter from B. L. Surface stating that in view of the voluntary reduction made the citizens of Mandan who petitioned for a hearing and reduction of rates now desire the petition dropped.

FACTS FOR THE
CITY TAXPAYERS

Valley City, one of the prettiest cities in the state, with a park system, a city owned water, electric light and central heating plant has a total bonded indebtedness of only \$120,000. Included in this amount is a bond issue of \$60,000, a first lien on the electric light and water plants. This issue is being retired from the earnings of the city owned utility.

No budget appropriation for interest or principal is to be included, but the entire obligation will be retired from the income of the city utility.

Included also in the \$120,000 bonded indebtedness is \$10,000 of park bonds. Valley City has several nice parks where the people can go for recreation.

Valley City has a very low overhead expense for city operation, but a very high record for being a clean, progressive city where the tax burden is kept within reason.

Just remember when voting July 26, that results obtained do not always depend upon the amount of money expended.

Let us debate public expenditures July 26.

ARMISTICE DAY
SUGGESTED FOR
NATIONS CONFAB

Word From All But One Of Nations Addressed

ANXIETY IS STILL FELT FRENCH DEPUTIES CHEER

Renewed Rioting in Belfast is Disquieting Feature of the Situation

Washington, July 12.—Favorable responses are understood to have been received today from all but one of the powers to which the United States suggested a conference on reduction of armament and related questions.

Although so far there has been nothing in the negotiations as to details administration officials have been so encouraged by the attitude of other nations that they have already given some attention to such questions as the dates on which the meeting will begin. One suggestion prominently under consideration is that Nov. 11, Armistice Day, be selected.

The exact subjects to be taken up at the conference are understood not to have received detailed consideration but officials were said to feel that there was no reason why the conversations might not logically lead to a plan for the association of nations advocated by President Harding.

FRANCES APPROVES.

Paris, July 12.—(By the Associated Press.)—The French government will accept with pleasure and without reserve the invitation to a conference on the limitation of armaments. This is stated in a letter sent to the American embassy here by the government this morning for President Harding.

Premier Briand later announced publicly in the Chamber of Deputies that the government would eagerly accept such an invitation.

The premier expressed thanks to President Harding for his noble initiative, while the Chamber broke into cheers.

TULSA CHIEF
FACES TRIAL

Police Head in Race Riot City
Is Given Hearing

Tulsa, Okla., July 12.—John A. Gustafson, suspended Tulsa chief of police, faced trial on charges of dereliction of duty during the Tulsa race riot. Gustafson is the first of three police officials indicted by the "race riot" grand jury and charged with that offense.

Conviction of Gustafson would carry with it dismissal from office, his attorneys stated, but not a jail sentence.

CHARACTER OF
BOWEN ASSAILED

First of Dozen Character Witnesses Placed on the Stand

Hettinger, N. D., July 12.—A dozen character witnesses will be placed on the stand by the defense in the Bowen murder trial in an effort to show that M. K. Bowen, Golden Valley county rancher, had a reputation of being a man who carried a gun. Charles G. Huffman was put on the stand as the first character witness of the defense. He declared Bowen was a dangerous man, and said that twenty persons had told him that Bowen was. The defense is trying to justify the shooting of Bowen by E. J. Taylor, a constable.

REEL AND REAL MADMAN.

Paris, July 12.—A Paris movie house was showing "The Madman's Dream." An escaped lunatic entered and watched with interest. As the film showed a madman cutting a throat, the real madman drew a knife and slashed a spectator beside him.

LABOR DAY CELEBRATION AT
MANDAN TO BE BIG AFFAIR

The joint committee of Mandan and Bismarck Central Labor Unions held a meeting on Sunday, July 10, in the Moose hall at Mandan, and discussed plans for the Labor Day celebration which will undoubtedly be the most widely attended of any celebration of that holiday ever held in the state.

The committee appointed to secure grounds for the celebration reported that they had procured the fair grounds from the fair association and the Mandan Commercial club. The management of the Mandan baseball team which had a lease of the grounds for the season, generously waived their claims for that day, and the secretary of the Commercial club, Mr. Sullivan, pledged the support of the club to the committee to make the day a memorable one in the history of the city.

COULDN'T PLAY
SUNDAY BALL;
BOY RUNS AWAY

His father wouldn't let him play ball on Sunday, so he left home.

That's the story told by Franky Huff, 15-year-old boy who lives near Montpelier, N. J., 30 miles south of Jamestown. Franky got off the train at midnight last night and was taken in custody by Chief of Police Martineson. His father had called from Jamestown saying the boy was on the train. The father arrived by automobile this morning and after a heart to heart talk the two went back home. The boy had been driving a cultivator, and left it and the team in the yard when he left home. The horses, left alone, ran away, dashing into a wire fence and injuring one of them. The father had opposed Sunday baseball.

SUGGESTS CITY
INSPECT MEATS
SOLD LOCALLY

City Bacteriologist Makes Report to the City Commission on Conditions

DISCUSS RAT CAMPAIGN

Suggestion that the city undertake meat inspection was made to the city commission last night by E. M. Stanton, bacteriologist. Appearing before the commission Mr. Stanton asked that body to purchase an instrument to be used in testing meat. Mr. Stanton said that there ought to be inspection of meat sold, and he complained particularly of the condition of one killing place outside the city limits. It was decided to invite a representative of the State Livestock Sanitary Board to appear before the commission next Monday night.

Mr. Stanton also reported he had made inquiries concerning methods of ridding cities of rats. There now is a representative of the United States Biological Survey in Fargo in charge of the campaign against the rodents there and Mr. Stanton said that he was willing to come to Bismarck and make a survey without expense to the city. Some commissioners expressed the opinion that they are not so numerous here as they were recently.

Mr. Stanton reported 17 pieces of property not having sewer connections, as required by ordinance. He still has to inspect Avenues A and B, 4th, 5th, 6th, 7th, 8th and 9th streets, he said.

Robert Jager was given an extension of time until Sept. 15, in which to fill up a street sandpit in the southeastern part of the city and he was to put up a bond.

Jager's Inspection.
A report on an inspection of the fire fighting apparatus in Glendive was made by Fire Chief Jager. In a letter to the commission he said:

"On a recent trip through Montana the fire chief of Glendive was kind enough to demonstrate the fire truck which they have in that city. Glendive has a 750 g. p. m. American LaFrance truck, and the chief informed me that it was four years old, and that outside of the cost of oil and gasoline there had been no expense whatever connected with it. The pressure attained was capable of boring a hole in a hard dirt road."

"The chief advised me that upon the purchase and putting into use of the truck that the fire insurance rates in the business district had been reduced 25 per cent and the rates in the residence district had been reduced 30 per cent."

LA FOLLETTE IS
VOTED THANKS

Mexico City, July 12.—International relations were discussed at a secret session of the Mexican senate last night. The meeting continued until quite late and during the proceedings there was a vote of thanks to United States Senator La Follette, of Wisconsin, for having on July 6 introduced a resolution protesting against military action against Mexico without express authority of Congress.

LABOR DAY CELEBRATION AT
MANDAN TO BE BIG AFFAIR

A program of sports will be prepared, with suitable prizes, a fine program of speeches, a parade of the different organized bodies, which will consist of a big band and other organizations, and a fireworks display. The day is an auspicious one for the families and friends of the union men and women of both cities.

An effort will be made to procure a special train to leave Bismarck at 10 A. M. and return at 12 P. M. Mandan time, which will give the Bismarck people plenty of time to stay for the dance in the evening.

The complete program of sports and sports for the day will be published in the papers of both cities soon, and a large delegation is expected from Wilson, Zap and other points where the United Mine Workers are organized.

TELLS SENATE
EXPENSES MUST
BE CURTAILED

President Says Nation is Imperiled Unless it Reduces Taxes

REFERS TO DISABLED

Says That Nation Owe First Duty to Disabled and Will Not Neglect Them

Washington, July 12.—Enactment at the present moment of adjusted compensation legislation for veterans of the world war would greatly imperil the financial stability of our country," President Harding told the senate today in the second address he has made to that body during his administration.

Every obligation is to the disabled and dependent, the President said, and the executive branch owed it to the country "frankly to state the difficulties we daily are called upon to meet and the added peril this measure would bring."

"This menacing effort to expend billions of gratuities will imperil our ability to discharge our first obligation to those we must not fail to aid," he said.

World Depression Exists.
"Our land has its share of the financial chaos and industrial depression of the world," the president said. "We have heeded the growth of indebtedness of the limit of expenditure during the war because we could not stop to count the cost. Our one thought then was the winning of the war and the survival of the nation."

After a four-months survey of conditions "which would stagger all of us were it not for our abiding faith in America," the president said he was "fully persuaded that three things were essential to restoration."

"Revision including reduction of our internal taxation, the refunding of our war debt and the adjustment of our foreign loans."

It is vitally necessary to settle these problems before adding to our treasury any such burden as is contemplated in the pending soldier bonus bill. Mr. Harding said it was "unthinkable to expect business revival while maintaining the excessive taxes of war" and "quite as unthinkable to reduce the tax burden while committing the treasury to additional obligations ranging from three to five billion dollars."

Says Debt Would Stagger.
"The precise figures no one can give," he said, "it is inconceivable that only \$200,000,000 will be drawn annually from the treasury in the few years immediately before us the bestowal is too inconceivable to be of real value to the nation's defenders; and if the exercise of the action should call for cash running into billions the depression in finance and industry would be so marked that vastly more harm than good would attend."

"No government fiat will pay our bills," the president said. "The ex-changes of the world testify today to that erroneous theory."

Mr. Harding pointed out that the government now was obliged to pay 3-1/2 per cent interest on short time loans that definite obligations of seven and one-half billions are to mature within two years following.

Overburdening of the treasury now means positive disaster in years immediately before us," he said. "More prudence calls out in warning."

Trying to Reduce Cost.

"The executive branch, he said, was 'driving toward that decreased expenditure which is the most practical assurance of diminished taxation.'"

"I can make you no definite promise in figures today," he said, "but I can pledge you a most conscientious drive to reduce government costs by many millions. It would be most discouraging to those who are bending their energies to save millions to have Congress add burden to our burdens at the very beginning."

"The president said that while the United States participated in none of the distributable awards of the war, the world 'owes heavily' and will pay when restoration is wrought."

"If the restoration fails world bankruptcy attends," he says.

Mr. Harding said he would not urge recommitment of the compensation bill to committee if it "bore the merest suggestion of neglect of a hint of national ingratitude."

Some of Things Done.
The president said that more than 700,000 claims had been adjudicated by the war risk insurance bureau to July 7, an expenditure of \$471,946,762. Sixty million applications for medical examination had been received, and less than 1,000,000 awaited medical examination. A whole on July 7, 28,237 disabled soldiers had been hospitalized in government hospitals which contained some 100,000 beds. In addition, Mr. Harding said, more than \$500,000,000 had been paid out in allowances and allowances and nearly.

BISMARCK BEATS FAST MOBRIDGE TEAM, 4 TO 0, IN SUNDAY GAME

Contest Played at Linton Attracted Crowd From Many Towns—Win at Strassburg Saturday.

TAYLOR IN FINE FORM

Linton, N. D., July 11.—While opposing batters were breaking their backs in an effort to solve Taylor's offering Bismarck batters with timely hits put the baseball contest with Mobridge, South Dakota, on ice in the early innings here Sunday afternoon. It was quite a baseball party. People drove to Linton from a dozen towns in this section to see the game. Automobiles brought a generous number of Bismarck and Mobridge fans. Linton people co-operated with the management of the teams in staging the event in fine style. The paid admissions numbered a little fewer than a thousand. After paying the Linton management \$100 for the use of the park and assistance in handling affairs the Mobridge and Bismarck management split fifty-fifty, dividing about \$600. Probably 1,500 to 2,000 people witnessed the game as the Linton baseball team and members of their families and others who helped stage the party were guests and a great number of people in automobiles viewed the contest from a free amphitheater on the hills.

Taylor vs. Mobridge. "Buck" Taylor, Bismarck pitcher, was in rare form. He began the game by striking out the first two Mobridge batters. In the second inning he struck out all three. He struck out the first man up in the fourth. He also struck out three men in the fifth. He had a total of 14 strike-outs. The Mobridge hits were a two-bagger in the fourth and a single in the ninth. Taylor walked but two men. El, Mobridge pitcher, also hurled a good ball after getting way to a bad start. He held Bismarck to five hits and struck out five men. The Mobridge rooters who accompanied their team claimed it was at the top-rung of South Dakota baseball, and the team displayed flashes of their class. Three double-plays cut down Bismarck chances to score.

Collins Drives in Run. The Bismarck team got away with a flying start. The locals lost the toss, up and went to bat first. Coble, first man up walked. Nichols sacrificed. Manger Joe Collins, who had been telling his men just before the game started to go out and win it early, slashed a single through second and Coble scored. Collins scored a little later on Wingfield's single. In the fourth innings Ellis was safe on an error and Mel Anderson hit a long drive over left fielder's head for a circuit clout, finishing Bismarck's total of four runs.

Sparkling work by Wingfield on first prevented Mobridge scoring in the ninth inning. Ellis took the heart out of the first Mobridge batter up in the seventh by making a nice running catch of a long hit to right center. Harper speared a liner with his left hand in the seventh inning and scared it with his right.

Fast Double Plays. In the first inning, with Lehman on second, on the hit and run, Ellis drove a liner to second and Lehman was doubled. In the fifth with Nichols on second and Collins on first, Lehman hit to third baseman Anderson who touched Nichols and doubled Collins at second. In the eighth with Lehman on first, Wingfield hit to third and he and Lehman were doubled.

The Bismarck management was pleased to have been able to stage an extraordinarily high class game for the fans of several towns and was highly gratified at the co-operation of Linton people.

Praise Emmons Road. Bismarck people who made the trip by automobile had nothing but praise for the Emmons county roads. A federal aid highway from Linton to the Burleigh county line, part of which was built last year, and part of which has been built this year or still is in process of construction gives autoists probably the best piece of road in the state. With the road completed to the Burleigh county line this year the Emmons county commissioners plan to extend it south from Linton next year, according to Frank Streeter, editor of the Linton Record.

The baseball grounds are in Seeman park, a beautiful spot owned by the city of Linton. The park land, about 20 acres, was given to the city by L. D. Seeman, a cattle man, on condition that the city would keep it up as a park. There is a beautiful grove in it, through which Beaver creek winds. Linton spent \$7,000 to \$8,000 in building a big pavilion which can be used as a dance hall or assembly hall and in other improvements. Nearly every Sunday there are hundreds of people at the park from distances of 50 miles. A fund recently was subscribed for Sunday afternoon band concerts.

Build Grandstand. Emmons county has a lot of baseball fans with a county league. Linton fans, wishing to improve the grounds in Seeman park turned out Saturday and began building the grandstand. Work continued until shortly before the Bismarck-Mobridge game and the grand stand was completed except for the roof. The Linton band, under the direction of Dr. C. O. Smith, played during the game. Members of the American Legion of Linton assisted in handling the crowd. They were stationed at various places in the park and on the road into the city to see that there was no reckless driving with several hundred cars in procession.

The story of the game, play by play, is found in another column. The box score:

ANDERSON PITCHES SHUT-OUT CONTEST

Al Anderson pitched a shut-out game against Strassburg Saturday evening at Strassburg, while Bismarck scored three runs. The game was played under difficulties, a high wind preventing several hard-hit balls from becoming two-baggers and three-baggers. Strassburg beat Hazelton easily in a contest at Hazelton Sunday.

MOBRIDGE GAME PLAY BY PLAY

First Inning. Bismarck—Coble walked. Nichols sacrificed. Collins singled through second. Coble scoring and Collins taking second on the throw-in. Lehman hit a high one which left fielder missed. Wingfield singled to left, scoring Collins. Ellis lined to second, Lehman being doubled at second. Two runs, two hits, one error. Mobridge—Streigle fanned. Smith also whiffed the ozone. Crotty flied to Coble. No runs, no hits, no errors.

Second Inning. Bismarck—Harper struck out, the third one being called. Mel Anderson fanned. Taylor grounded out to first, pitcher taking the throw at the base. No runs, no hits, no errors. Mobridge—Nelson fanned. Ives also fanned. Clark did the same thing. No runs, no hits, no errors. (At this point the band struck up a tune to enliven the proceedings.)

Third Inning. Bismarck—Coble lined through second safely. Nichols again laid down a perfect sacrifice. Collins hit a high one to right. Lehman lined to center. No runs, one hit, no error. Mobridge—Price fanned. Anderson out, Nichols to Wingfield. Betzel out, Taylor to Wingfield. Mobridge had not yet had a man on first. No runs, no hits, no errors.

Fourth Inning. Bismarck—Wingfield fanned. Ellis safe on shortstop's error. Harper flied to center. Mel Anderson hit a terrific line drive to left, easily making a homer and scoring Ellis. Taylor fanned. Two runs, one hit, one error. Mobridge—Streigle grounded out to Wingfield. Smith got a two-bagger to left, Mobridge's first hit. Crotty out, Taylor to Wingfield. Nelson fanned. No runs, one hit, no errors.

Fifth Inning. Bismarck—Coble out, third to first route. Nichols walked. Collins hit by pitcher. Lehman hit to third, Nichols being tagged out and Collins being doubled at second. No runs, no hits, no errors. Mobridge—Ives struck out. Mobridge batters began to swing desperately in an effort to connect with the ball. Clark and Price also fanned. No runs, no hits, no errors. (The band gave Mobridge a consoling tune.)

Sixth Inning. Bismarck—Anderson, Mobridge third baseman, made a nice running catch of Wingfield's foul. Ellis flied high to left. Harper did the same. No runs, no hits, no errors. Mobridge—Anderson safe on Wingfield's error. Betzel fanned. Anderson took second on a wild pitch. Taylor walked Streigle, his first pass. Smith fanned. Crotty also fanned. No runs, no hits, one error.

Seventh Inning. Bismarck—Mel Anderson singled, past third. Taylor forced Anderson at second on an attempted sacrifice. Coble hit a high one to center. Nichols out, third to first base. No runs, one hit, no errors. Mobridge—Nelson flied to Ellis. Ives fanned. Clark hit a liner on which Harper made a nice catch. No runs, no hits, no errors.

Eighth Inning. Bismarck—Joe Collins out on called strikes. Lehman hit by pitcher. Wingfield hit into a double play, short to second to first. No runs, no hits, no errors. Mobridge—Price walked. Anderson out to Wingfield unassisted. Price taking second. Ellis made a fine catch of Betzel's long drive to right center. Price taking third. Streigle out, Nichols to Wingfield. No runs, no hits, no errors. (The band again played after Mobridge's best chance to score brought nothing.)

Ninth Inning. Bismarck—Ellis hit by pitcher. Harper sacrificed him. Mel Anderson flied to center. Taylor out, short to first. No runs, no hits, no errors. Mobridge—Smith fouled out to Coble. Wingfield robbed Crotty of a hit by taking his grounder over the back. Nelson singled through the box. Ives out, Harper to first. Wingfield making a nice catch. No runs, one hit, no errors.

LOCALS OUT TO BEAT BOARDMAN AND FARGO TEAM

Three-Game Twilight Series Opens Here Tuesday Evening—Team Strengthened

A hard fight to win the Fargo series which starts tomorrow will be made by the fast-going Bismarck baseball club. The team now is in fine shape. With the addition of Wingfield and Lehman the team now has enough men to meet emergencies. Fargo played a three-game series with Devils Lake and ended a three-game series with Minot yesterday on its road trip. The team was to stop at Wilton and play today; and Tuesday, Wednesday and Thursday will play at Bismarck at 6:30 p. m. Clarence Jensen or Charley Boardman probably will pitch for Fargo tomorrow. Minot defeated Fargo in the first two games of the series. Higgins probably will pitch the opener for the locals. Fargo beat Minot 13 to 0 Sunday. George Chicken will not join the local club, it is announced. He had telegraphed he was leaving for Bismarck but later the arrangement was cancelled. It was reported that Moore, Minot catcher, had joined Fargo. Now that the Japs have employed British air experts, the Anglo-Japanese Treaty may be renewed.

Street Dance Wednesday Night

A street dance will be given Wednesday for the benefit of the Elks swimming pool fund. The dance will be in charge of the Elks band. It is hoped a great crowd will attend so that a large sum may be realized for the pool.

LADIES INTERESTED IN SCHOOL

The interest taken by the ladies of Bismarck in the Domestic Science School at the American Legion Hall is growing daily and all who attend are agreed that it is a most profitable way to spend an afternoon. The lecture this afternoon was on the correct and safe making and proof of mazes to every lady present. Mazola is used in the making of pie crust instead of solid fat. Mazola has been on the market for seven years and during that time many improvements have been made in it. Miss Tyler continued saying that Mazola was no longer a substitute but could be used every place butter, lard or olive oil is used. Mazola is absolutely pure, it contains 100 percent oil. Mazola can be used to cook different foods and because of its high temperature closes the food cells and so prevents the other tastes from entering. Another interesting lesson will be given at the American Legion Hall tomorrow afternoon at two o'clock.

GREEK BAPTISMAL SERVICE HERE

The Episcopal church was the scene of a very pretty and ancient baptismal service this afternoon when the infant son of Mr. and Mrs. Thomas Nassif was baptized. Rev. Basil G. Mahfouz, rector of the St. Thomas Syrian Greek Orthodox Church of Sioux City, Iowa, officiated at the ceremony. The service was most impressive, each person present holding a lighted candle throughout the ceremony. The entire service and all the singing is carried on in the Syrian tongue. During the service the baby is immersed which completes the ceremony. Those attending the ceremony were entertained at a one o'clock dinner.

MARRIED HERE

Miss Mamie Beshara and Mr. Michael Ellis of Sioux City, Iowa, were married at the home of the bride last night. The bride was attired in a dress of white satin and georgette and carried a shower bouquet of pink and white roses and carnations. She wore a wreath which was fastened with orange blossoms. Mrs. S. Nicola and Mr. George Nassif were the attendants. Mr. and Mrs. Ellis will make their home in Bismarck for the present.

LET CULVERT CONTRACTS

The county commissioners have let contracts for the construction of reinforced concrete culverts to J. C. Young, of Bismarck, as follows: 1 culvert between Sibley, Butte, and Tripp townships; 1 culvert between sections 5 and 6 in Christiana; 1 culvert between Harriett and Wing townships; 1 culvert between Naughton and Craft townships.

SCHOOL BOARD MEETS

The city school board held a meeting today and because not all members were present adjourned. The school board has several thousand dollars worth of bills to pay and is unable to get a check given by the county treasurer cashed. All salaries were paid, according to board members.

GIRLS! LEMONS WHITEN THE SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin. Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach, because it doesn't irritate.

Mrs. Comstock Tells How Cuticura Healed Child's Eczema

"My little daughter had eczema when she was eighteen months old. The eruptions on her face were large and red and festered and scaled over with a black scale. There were small, watery places on her scalp which turned to a soft white scale. She was terribly disfigured and restless at night. I began using Cuticura Soap and it was a great help, but not until I began using Cuticura Ointment, together with the Cuticura Soap, did the eruptions entirely leave. She was healed." (Signed) Mrs. J. A. Comstock, 213 S. 13th St., Richmond, Ind.

Cuticura Soap to cleanse and purify. Cuticura Ointment to soothe and heal and Cuticura Talcum to powder and perfume are ideal for daily toilet purposes.

The art of making perfect salad dressings explained and demonstrated

Free lecture and demonstration at American Legion Hall, Over Rex Theatre.

A GAIN tomorrow, and continuing throughout the week, a course of lectures and demonstrations will be held in the American Legion Hall, over the Rex Theatre. This course is under the auspices of the Corn Products Refining Company, by graduates in domestic science—and is absolutely free.

The latest and best methods of cake making, salad preparations, seasoning and shortening, will be demonstrated. Special stress will be laid upon kitchen management, in saving of time, strength and energy.

Everything said about freedom from smoke in cooking with Mazola, and about Mazola not carrying odors or flavors from one food to another will be proved at these demonstrations.

The experts will fry fish, onions and a fritter in the same pan—at the same time—and you may prove, by tasting for yourself, that there is no odor of flavor carried from one food to the other.

If you want to learn how to cook without smoking up the house, or how to mix up a salad dressing that will make all the men folks "sit up and take notice," be sure and attend these lectures. Any questions concerning your perplexing cooking problems cheerfully answered. Bring pad and pencil, and take notes during the lecture.

Women's Clubs, Teachers' organizations, and high school domestic science classes especially invited. Cook Book, (64 pages), beautifully illustrated, will be sent free to those attending.

SUNKEN TREASURE
A scheme for raising and refloating the Lusitania has been concocted by some promoters. They are selling stock in their extremely ambitious venture.

By the sea-law of salvage, if you could raise the Lusitania from its ocean grave, it and all its cargo would belong to you

In the next few years, and for centuries, there'll be many such schemes for raising ships torpedoed during the war

A lot of the cargoes can be recovered by divers working out of submarines, according to Simon Lake, marine inventor.

Possibly some of the sunken treasure will be fished up.

Buried treasure—especially pirate's gold—has a romantic glamor that has made it one of the leading lures for centuries.

The clock never strikes but there are treasure-seeking ships cruising around Jamaica, Florida or in South American waters.

While these expeditions are successful about as often as a century plant blooms, there are authenticated cases of adventurers recovering treasure-trove.

And of the most notable was Captain Phips, who in 1696 sailed from England to Port de la Plata and, using native divers, brought up 32 tons of silver from a sunken Spanish galleon.

Buried in the deep harbor of Vigo is a treasure fleet sunk in 1702 by Sir George Rook, one of the English sea captains who wrecked Spain as the world's leading power. This treasure fleet carried \$140,000,000 tribute from Peruvian and Mexican gold mines. That's the greatest treasure-trove on the globe. Many have tried to fish it up. All have failed.

History has played strange tricks on the pirates. Captain Kidd undoubtedly buried many chests of plunder, and at some time or other every one of us has dreamed of finding them.

Yet Captain Kidd was not a cut-throat who made his victims walk the plank. He was a rather tame, third-rate pirate, finally hanged for smashing the skull of his head gunner with a wooden bucket.

Like many great characters in history, he became famous by having good press agents after his death

Where can you find buried treasure?
As Tom Sawyer said to Huckleberry Finn: "It's hid in mighty particular places, Huck, sometimes on islands, sometimes in rotten chests under the limb of an old dead tree, just where the shadow falls at midnight; but mostly under the floors in haunted houses"

We don't know whether small-town boys still dig for buried gold, but if they don't they're missing a lot of fun. Certainly it was the supreme boyhood thrill of nearly every American man now nearing middle age.

Now that the prodigal peace is back, let's kill the fatted profiteer

HANDSHAKING
Homeopathic doctors, meeting in convention in Washington, felt sorry for President Harding after he had been obliged to shake hands with 1200 of them. So a resolution was offered condemning the custom that imposes wholesale handshaking upon presidents. It was voted down, however.

Shaking hands with the president is one of the privileges of American citizenship and one of the penalties of the presidency. Doctors say wholesale handshaking is unsanitary, but as a political custom, it is one of the external tokens of democracy that helps keep America safe—for parties.

P. S. BANK
Postmaster General Hays has announced a reorganization of the Postal Savings bank of far-reaching importance. He says that if Congress will back him up with the necessary legislation he can add hundreds of millions to the country's usable wealth. This money is now hoarded because its possessors are afraid of private banks

and do not consider the Postal Bank's terms are attractive enough
Hays proposes to raise the Postal bank's interest rate from two per cent to three per cent and to so liberalize the bank in other ways that hoarded money will flow into it.
The Postal bank now has 508,000 depositors, 70 per cent of whom are of foreign extraction. The total of their deposits is merely nominal compared with what it would be if the liberalizing policy suggested by Hays were carried out.

CONSCIENCE
An Ohio supreme court judge appeals for the "court of conscience" as a final standard for all lawsuits
Many a lawyer in Bismarck will agree with him.

Such a standard would be of inestimable value to the public and to honest lawyers.

The "court of conscience" could be established and maintained by co-operation of public opinion and stringent action by bar associations to prevent practice of law by unconscientious attorneys.

DANCING
In a municipal dance pavilion in an Ohio town, there were, despite orders, some who insisted on toddling and cat-stepping and camel-walking. And so all were called together and given this speech:
"Dance as you would if your mother were here!"

This is the best that has yet been said in behalf of clean dancing.

There is not much danger of a girl dancing the wrong way if she can be made to visualize the improving eyes of her mother watching her.

PLAYING
Wilhelm Hohenzollern is reported to be wearing again the glittering uniforms that he loved to display when he was war-lording the world.

So the last of the autocrats for whom millions died is playing soldier, still feeding the vanity that wrecked him

It was the French philosopher-preacher, Pascal, who said: "Vanity is the great enemy of man; but those whom it hath betrayed never cease to honor it. Such is the folly of man."

MOVIES
In Paris recently gendarmes used a lasso to capture a fugitive when they couldn't get him in any other way.
They learned the art from Will Rogers, Tom Mix, et al.
Girls in Italy are reported to be dressing their hair like Mary Pickford.
These examples well illustrate the power of movies for world-wide dissemination of knowledge.

EDITORIAL REVIEW
Comments reproduced in this column may or may not be the opinion of The Tribune. They are presented here in order that our readers may be made aware of important issues which are being discussed in the press of the day.

REWARDS
This country certainly rewards liberally the kinds of endeavor that please its fancy.
Mr. Dempsey, for his part in Saturday's entertainment, was paid three hundred thousand dollars, which at six per cent would mean eighteen thousand dollars a year or fifteen hundred dollars a month.

M. Carpentier, for his share in the show, got two hundred thousand dollars, which would mean twelve hundred dollars a year or a thousand dollars a month.

True, the tax collector bit deeply into these rewards, but that is what the fighters got before the taxation process took hold.

A schoolmaster getting as much a year as Dempsey would draw each month from his share if it were unimpaired by taxes, or a preacher who has Carpentier's monthly income for his annual wage, might study these figures with intense interest and search for the moral.—Duluth Herald.

THE MONEY COMPLEX
We are indebted to an unexpected source—Mrs. "Fifi" Stillman—for a new indictment against Wall street and all its evils. Mrs. Stillman, who has had opportunities for extensive first hand observations, explains her husband's alleged derelictions as due to "the life they lead down there." "Down there" means Wall street.

"The constant struggle for power, power, more power, and still more power," he says, "that is the life of some of the men in the street. The eternal mania is for making money. It is this power craze in such men that turns them away from their equals in their moments of rest from business, in their moments of relaxation."

Perhaps she is right. Who knows? Wall street has been blamed for much of the evil afflicting mankind in this country for many years. It has been accused of wrecking fortunes, turning honest men to embezzlement and other crimes, coercing and destroying honest business, promoting licensed gambling, and exploiting the common people for the benefit of the money barons. Now Mrs. Stillman, speaking with the authority of a name nationally advertised, adds infidelity to the street's list of criminal responsibilities.—Chicago Tribune

ADVENTURES OF THE TWINS
By Olive Barton Roberts

"What for?" Mr. West Wind wanted to know.
"Ho, ho!" shouted Mr. West Wind, "who's there?"
"Mr. Sprinkle-Blow and his helpers" answered Nick through the door. "Will you please come out."
"What for?" Mr. West Wind wanted to know, but just the same he hanged his front door open with his breath and came blustering out. "What for?"
"Sprinkle-Blow told him the trouble. 'Howdy Thunder and Jumpy Lightning are out,' said he. 'Howdy took his big bass drum and Jumpy took his daisy flashlight and they escaped from the House of the Nuisance Fairies where I thought I had 'em locked up safe and sound, and they're down there (Sprinkle-Blow said down there because you see West Wind's house was on a star high above the clouds).'
"They're down there jumping round on the black clouds above the earth and scaring folks dreadfully. Why Will Woodpecker tumbled clear out of the maple tree and Naney and Nick here turned back somersaults they were so surprised."

DECISIONS OF SUPREME COURT
From Stark County
Paul Olson Plaintiff-Respondent, vs. The Grand Lodge of the Ancient Order of United Workmen of North Dakota, a corporation
Defendant Appellant
Syllabus 1 The failure of a beneficial Order to demand or secure from its insured member, an application for war permit and the payment or refusal of an extra war premium provided by its regulations for its members engaged in military service, and the reception of regular assessments and lodge dues while knowing that the insured member was in the service do not constitute reasons stated in the opinion waiving or grounds of estoppel

2 The provisions in a beneficial certificate of insurance which make the liability of the beneficial Order if the insured member shall engage in the occupation of a soldier in time of war, engage in Military service in time of war, or shall enter in the service of the United States army state grounds of a status and not of causation as a test where no provisions otherwise indicate

EVERETT TRUE BY CONDO

DETROIT, Mich.—"I was not feeling well for several years and never was able to eat any breakfast and always complained of a headache or tired feeling which at times required me to stop my work and rest. I have never had a physician and never took any medicine for it until yours was recommended to me by a neighbor whom I used to visit frequently. I took four bottles of Lydia E. Pinkham's Vegetable Compound, and now I am in the best of health and enjoy doing my work every moment of the day. It surely put life and 'zip' into my system."

—Mrs. L. M. DARRAS, 46 Howard St., Detroit, Michigan.

It is not always in business that a woman is forced to give up her work on account of ill health. It is quite as often the woman who does her own work at home. When backaches and headaches drive out all ambition, when that bearing-down sensation attacks you, when you are nervous and blue, the one great help for such ailments is Lydia E. Pinkham's Vegetable Compound.

IN BISMARCK
The Evidence Is Supplied by Local Testimony.
If the reader wants at once to get more than the following statements and experience of a resident of Bismarck what can it be?
Clayton W. Ferguson 608 1st avenue Bismarck N. D. says: "A year ago I had trouble with my kidneys. They were weak at times and I seemed to have no control over the kidney secretions. My back bothered me especially at night and I was stiff and lame. I had been doing some extra hard work and I blame that for the start of my trouble. I read about Dean's kidney pills and got two boxes. I took soon enough my trouble and I felt better in every way since taking them. I am pleased to give Dean's my endorsement."
Price 60c at all dealers. Don't simply ask for a kidney remedy—get Dean's kidney pills. The same that Mr. Ferguson had. For sale by Co. Mrs. Buffalo N. Y.

INSIDE NEWS AT CAPITAL
BY H. B. HUNT.
Washington July 12.—Herbert Hoover put a quick quietus to the suggestion that the government send a party of investigators to Europe to study business conditions.
We have more complete and more dependable information on trade conditions in Europe in this department right now Hoover said, than could be collected by any touring investigators in a year

John Sharp Williams whose classic English is one of the charms of Senate debates, says President Harding doesn't use good English

Normally John Sharp says is not a legitimate word, it's a cut a hybrid an accident. "Normality" is the proper word to express what the president means when he says normally

The state department already has been hearing from foreign countries with respect to proposals in the tariff bill

No less than half a dozen countries have made representations to show how provisions of the bill would injure commerce with the United States

France has registered a vigorous protest against the provision that exporters to the United States would have to open their books to Lincoln Sam's agents

I'm afraid the beer regulations won't get out until after the hot weather's over. Secretary Mellon told a solicitous inquirer the other day

Which makes it look as though they wouldn't get out at all
With two months of hot weather yet ahead, Congress even though moving at normal speed can pass the amendment to the enforcement act necessary to prevent the use of beer as medicine in fact the revenue commissioner is waiting for it to do just that

For the year ending July 1, 1921 Uncle Sam collected the next expenses of government, \$1,593,248.61
Which is \$43.75 for each man, woman and child in the country

Of this sum, 70 per cent or \$1,116,713.49 was collected through income and profits taxes, 30 per cent or \$476,535.12 through miscellaneous and excise taxes

Not the least of the problems confronting Congress in its revision of the revenue bill is the shrinkage that must be faced this next year in taxable incomes and profits

We're rapidly getting back to normalcy," as anybody can see who follows the tariff debates in Congress. Doesn't this, for instance, sound just like old times?

Everybody knows that a high protective tariff now is a fraud and a humbug

"There is not a business man in the country with sense enough to get out of the way of an automobile who does not know that there is no need and no call for high protective duties at this time"

Yes, of course it was a Democrat speaking—Fletcher of Florida

DOINGS OF THE DUFFS BY ALLMAN

BIG PAGEANT WILL DEPICT MANY SCENES GOVERNMENT TO CONTINUE OPEN DOOR POLICY

Historical Drama to Feature Celebration of Pilgrim's Landing July 20 Pleases Government of That Nation

Boston, Mass., July 12.—The big pageant, depicting scenes from the legends of the Norsemen through the centuries, and down to the World War, celebrating the tercentenary of the Landing of the Pilgrims here July 20 will open with a fanfare of trumpets.

Then speaks a voice from the rock which is illuminated but where no human being is visible.

"To me the Pilgrims come," the voice declaims, after reciting the transitory visits of traditional Norsemen and of English, French and Dutch adventurers. The procession concludes.

"Of me, the rock in the ooze, they have made the cornerstone of the Republic."

Scene after scene follows, passing from the Norsemen crossing the harbor in their galley and fighting with the Indians on the shore to authentic history. The visits of early explorers, including John Smith and Champlain, are depicted in tableaux, concluding with a view of an empty and desolate stage symbolizing the great pestilence which swept away nearly all the Indians from the vicinity shortly before the year of the Pilgrims' arrival.

The scene shifts to England, where the struggles of the puritans for the right of independent thinking and worship are portrayed. The Pilgrim Fathers themselves then appear, at Scrooby, planning their migration to The Netherlands, and later enjoying Dutch tolerance and hospitality.

Next comes the departure from Delftshaven for the New World, followed by the signing of the Compact in the cabin of the Mayflower, the landing at Provincetown, on the tip of Cape Cod, on November 25, 1620, the first landing at Plymouth, the dealings with the Indians, hardships of the first winter and the return of the Mayflower, leaving behind the remnants of the little Pilgrim band.

Two more scenes of Pilgrim life in Plymouth and then Governor Bradford is seen writing his chronicle. The lights go higher and in swift succession are revealed Washington, Lincoln and Roosevelt. A warlike clash in the orchestra and the ruler of modern Germany, Turkey, Austria and Bulgaria cross the stage. Out in the harbor a light glows on the Mayflower. Conveyed by the Pilgrims and the Dutch, the forty-eight state flags are brought in view. The voice from the rock cries:

"The path of the Mayflower must be kept open!"

One final chorus, with pageant ground and harbor ablaze with light, then the stage darkens. Only the light on the Mayflower remains. From the rock come the immortal words of Lincoln, combined from separate utterances:

"With malice toward none and charity for all, it is for us to resolve that this nation under God shall have a new birth of freedom."

Next comes the departure from Delftshaven for the New World, followed by the signing of the Compact in the cabin of the Mayflower, the landing at Provincetown, on the tip of Cape Cod, on November 25, 1620, the first landing at Plymouth, the dealings with the Indians, hardships of the first winter and the return of the Mayflower, leaving behind the remnants of the little Pilgrim band.

Washington, July 12.—The recent declaration of the intention of the United States to continue its support of the open door in China was commended by Suo-Kie Alfred Sze, the Chinese minister.

In a statement which contained the text of notes exchanged between his government and the state department, the minister declared it "was gratifying to note" from Mr. Hughes' reply "the re-annunciation of the open door policy in China," and that the position of the American government was sound and can hardly be shaken.

The statement contained the following note addressed to the Secretary of State on June 9:

"I have the honor to inform you that on the eighth of January last an agreement was made between the ministry of communications, on behalf of the Chinese government, and the Federal Telegraph Company, an American corporation, for the erection and operation, as a joint enterprise of the Chinese government and the American company, of stations for wireless communication. Against this agreement protests were presented to my government by certain governments, claiming that by granting to the American company the right of participation with the Chinese government, in wireless communications the rights of their nationals secured under prior contracts were violated."

"In a recent conversation with you on the subject, I understood from you that the American government could not admit the validity of such claims by reason of their contravening the treaty rights of American citizens in China and the principle of the open door."

"My government is informed that these governments have explained their views to you, and therefore, instructs me to inquire whether or not it is the intention of the American government to maintain its position in the matter."

SIX DAYS OF DEBATE FACES LOWER HOUSE

Washington, July 12.—Six days of talk confronted the house as it started on its second week of consideration of the Fordney Tariff Bill.

More than forty members slated to expound the doctrines of their respective political faiths.

Only one vote is certain to break the monotony of the free-for-all oratory of the first four days. The special rule, sought by the wavs and means committee to curtail procedure in handling the measure through the house, will come up for a vote today, Chairman Campbell of the Rules Committee announced.

Other votes may be reached Friday or Saturday, but the limitation of five minutes on speeches beginning Friday does not augur an early vote on any amendments that may be offered, according to leaders, who are agreed that there is much more talk stored up in the house than can be crowded in the four days.

The speeches of Chairman Fordney of the ways and means committee and Representative Garner of Texas, the ranking Democrat on the committee, laid the basis for the amendment that is to come. Other members of the committee will speak during the week, the republicans to explain and amplify the bill's provisions, and the democrats to attack them.

Adoption of the special rule which permits amendments to and separate votes on five paragraphs in the oil dyes, cotton holes, oils and asphalt is assured by virtue of the heavy Republican majority in the house. The democrats, however, will not let the roll call be taken without making use of the time to assail the Republican attitude, according to Representative Garrett of Tennessee, acting Democratic leader.

The rule will automatically end general debate next Thursday night and will bring the bill to a vote at 10 o'clock Thursday, July 21.

BIG GRAFT IN RAIL OPERATION

Mexico City, July 12.—Mismanagement of the national railroads and graft in connection with their operation have cost the government more than three hundred million pesos or an average of three million pesos monthly the brains of the railroad departments were told last night when they assembled to meet at the director of railroads.

The bill, introduced by Ramon P. Lugo, a President Obregon's personal representative on the railroad board, is a measure which would in this country be considered a bill to learn of the cost of the railroads which have been in operation since the revolution.

Why call for reform? The bill has 12 provisions. It calls for a complete investigation of the railroads, and the bill is a bill to learn of the cost of the railroads which have been in operation since the revolution.

FARGO BEATS WILTON TEAM; PLAYING HERE

Three-Game Series Between Locals and Gate City Team Opens Tonight

The Fargo baseball team came on to Bismarck last night for the three game series which opens here this evening at 6:30 P. M. After playing Wilton Fargo won the Wilton game 5 to 4 with Jensen pitching.

All the games of the Fargo series will be called at 6:30 P. M. It is not likely that any future games can be scheduled with the Fargo team and fans will have their only chance of seeing the Gate City team in action in these games.

The Fargo line up was strengthened entirely with the addition of two or three stars from Red River Valley teams which had ended their season.

Moore, Minn. has been asked to manage the Minot team but is reluctant to take on the job. A meeting of Minot boosters will be held in that city this week to talk over the team's affairs.

After the Fargo series ends her Bismarck goes to Fargo and plays there Friday Saturday and Sunday. Minot is scheduled to come here the following Tuesday.

Private Baker, president of the H. P. Keller, secretary of the local ball club has made public a statement of finances for the information of fans up to July 10 is follows:

LOCAL HORSES WINNING RACES

Resolved a race horse owned by Mrs. H. M. Bryan of Bismarck is doing well at races at Cando. The horse won three straight heats over a field of class trotters. Eddie Russell, 11:14 got second money in a field of 11 starters. Both horses are owned by Mrs. Bryan.

VAN HOOK HAS STIFF SERIES

Van Hook N. D. July 12—Van Hook's fast base ball team is scheduled to play six games in three days as follows:

July 12 two games with Estevan, Cando. July 13 at Bowbells 2:30 P. M. July 14 at Kenmare 6:30 P. M. July 15 at Flaxton 2:00 P. M. July 16 at Protal 6:30 P. M.

Van Hook claims to have the fastest team in the northwestern part of the state and is scheduled to play Minot a series in the future.

PRISON TEAM SPLITS EVEN

The penitentiary team wants to play cannibal again. Cannophall defeated the pen team Sunday afternoon 12 to 7 after the pen team had beaten Napoleon 6 to 2. The prison team has won two out of its last three games defeating a strong Mandan team a week ago Saturday. Love pitched a nice game against Napoleon for the prison team. Myers was in the box for Napoleon. Reilly, pen catcher, split his hand and Peoples, second baseman hurt a finger.

Season Half Over With Pittsburgh Leading New York

New York July 11—The half way mark of the major league pennant races finds the Pittsburgh National League leaders 12 games ahead of New York and the Cleveland World's Champions, with the same margin over the other New York club. The pace of the pennant race is points better than that set by Brooklyn winning from the pennant last year while the Indians are going at a point higher rate than in 1920.

The other first division clubs of both leagues are playing winning ball or have much ground to make up to overtake the two lead. The national teams are well spread out and the American clubs are gauged within a range of 10 points.

In the National League, the Pittsburgh twisters with the exception of George Blumenthal are not displaying any stiffness at present. The Pirates took two games from Brooklyn but lost today when the superbly batted Morneau hard. Pittsburgh is not hitting as effectively as the other first division clubs while the pitching strength of the four clubs appeared about equal last week. New York is cutting in 11 runs lead apidly. The Giants have won seven of their past nine games. St. Louis is hitting and fielding in splendid fashion. Chicago and Cincinnati are not converting the hits into runs. Poor fielding has offset Philadelphia's good hitting. In the American League Cleveland today fanned several for the unpleasant surprise it received at the hands of Philadelphia. Milwaukee and Detroit both linked the Athletics who had taken two games from the Indians after losing three

PLAYED ON TEAM OF "SIX SISLERS"

JUDGE FRANK MARSH

No matter where the St. Louis Browns finish there is one man who thinks they are the greatest team in the majors.

He is Judge Frank Marsh of Manchester, Ohio.

His idea of baseball is that George Sisler conceded by most fans to be the best all round player in the majors is the whole American League. And this is simply because Mars once played on the team of the famous Six Sislers at Manchester back in 1888.

The Six Sislers were the father, uncles and cousins of the peerless George.

straight to New York. Likewise Chicago which had dropped three games to the Indians defeated the Yankees three times including today's game. Washington and Detroit continue their race of slightly over 500. Boston is getting good pitching but the Red Sox are weak in scoring power. St. Louis has resumed its heavy hitting after a lapse early last week. Keir and Faber are the only steady Chicago Twinklers and the White Sox have been unable to make good use of their many hits.

RUTH SMACKS OUT HIS 32nd

ASKS WOMEN TO AID MEMORIAL TO ROOSEVELT

Secretary of National Association Visits in Bismarck

Women of North Dakota are asked to aid in the maintenance of the home in which Theodore Roosevelt was born.

Mrs. Charles A. Bryan of New York, secretary of the Woman's Roosevelt Memorial Association who was in Bismarck yesterday and today stopping here on her way to the coast in an automobile with her son and daughter, told of the work done by the association.

The old four story residence in New York was restored by the association several months ago. The dedication brought to the old brick residence many of the nation's most distinguished people. Funds are being raised by the memorial association for the maintenance of it.

While here Mrs. Bryan conferred with Col. Little and she announced that contributions to the fund may be made through the First National Bank or through Mrs. John O. Hanchett of Valley City, state chairman of the Woman's Roosevelt Memorial Association. Each woman who contributes \$1 will receive a medalion bearing the likeness of Col. Roosevelt and have their names enrolled in a book in the house.

Mrs. Bryan visited the Roosevelt cabin at the capitol grounds before leaving the city.

FARMERS TELL WHAT IS WRONG

Questions Propounded by Federation Are Answered

Chicago, July 12—Answers to the question as to what is wrong with agriculture which were asked earnestly from 1,600 counties in 47 states by the American Farm Bureau Federation to ascertain the opinions of the farmers themselves began coming into headquarters of the federation here today. The answers indicated that the farmers believe that conditions would be greatly improved by lowering freight rates levying tariff on foreign products and marketing farm products co-operatively.

TELLS SENATE EXPENSES MUST BE CURTAILED

(Continued from Page 1) four billions of government insurance was in force.

On Vocational Training. The president also recited the fig-

ures as to vocational training of disabled veterans and added: "It is inevitable that our obligations will grow and grow enormously. We never have neglected and never will neglect the dependent soldiers and there is no way to avoid time's remorseless classification."

The president said Congress would not ignore other problems of legislation but that he had come to discuss these.

Move to Recommit. I want to emphasize the suggestion he said in conclusion that the accomplishment of the major task for which you were asked to sit in extraordinary session will have a reassuring effect on the entire country and speed our resumption of normal activities and their rewards which tend to make a prosperous and happy nation.

When President Harding concluded his address Chairman Penrose of the finance committee moved that the bonus bill be recommitted to that committee as urged by the executive.

MOVE TO STOP MEX. DISORDERS

Governor of Tampico District Takes Action

Tampico, Mexico, July 12—By the Associated Press—General Caesar Lopez Lara, governor of Tamaulipas is taking steps to avoid disorders in the Tampico oil region due to unemployment. Upon orders from President Obregon he has organized an office to look after the situation and is concentrating the unemployed in this city for the purpose of sending them to the interior.

The total number of men out of work does not exceed 10,000. Tampico was quiet yesterday and there was nothing to suggest a crisis as a result of the partial shut-down of oil operations.

BIG POLICEMAN MAY GO AFTER DEMPSEY TITLE

Chicago Cop Said to Have Stopped Mob of 400 with Bare Fists

New York, July 12—A Washington policeman was in New York seriously considering his chances of winning the world's heavyweight boxing championship from Jack Dempsey. He is Henry Darnelle, 21, the undefeated heavyweight champion of the United States navy destroyer fleet during the war but otherwise unknown in boxing circles.

Darnelle was pronounced by physicians to be in perfect conditions physically and this, followers say, with his build which is very similar to the champion's together with his natural all-around development and fighting ability have placed him among those who can properly aspire to defeat Dempsey. The Washington policeman won local fame on the Fourth of July when he quelled a disturbance in Capital Heights. With his bare fists he knocked down every man in a mob that rushed at him and Washington newspapers number the casualties at about 100.
